COLOMBIA

REGIONAL PROFILE
This brief regional profile provides facts and figures that illustrate local conditions and challenges for English language education. Education spending refers to the percentage of total government expenditure dedicated to education. Internet penetration is the percentage of people in the region with access to the Internet.

ENGLISH AND EARNING POWER
The EF EPI has consistently found correlations between English ability and earning power, quality of life, innovation, and a range of other social and economic indicators. This correlation graph shows a positive relationship between regions’ English proficiency and their average gross income.

REGIONAL FACT SHEET

EF EPI 2018

EF EPI BY INDUSTRY
Worldwide, the gap between the industries with the highest and lowest English proficiency levels is narrowing, due to improved proficiency in the weakest industries. English is an increasingly important skill in every industry and across all job functions as globalization opens historically local sectors to international competition.
