ENGLISH AND EARNING POWER
The EF EPI has consistently found correlations between English ability and earning power, quality of life, innovation, and a range of other social and economic indicators. This correlation graph shows a positive relationship between regions’ English proficiency and their average gross income.

EF EPI BY INDUSTRY
Worldwide, the gap between the industries with the highest and lowest English proficiency levels is narrowing, due to improved proficiency in the weakest industries. English is an increasingly important skill in every industry and across all job functions as globalization opens historically local sectors to international competition.

ABOUT THE EF EPI
The EF English Proficiency Index (EF EPI) is the world’s most comprehensive ranking of countries and regions by adult English skills.
